Green Buddies First Round for a 4-Team, 60-Match Monday & Thursday Morning Round Robin Format.

- **4-Team Four-Ball Round Robin.**

This group structure maximizes team camaraderie and ensures a fair, balanced playing environment.

- **Total Teams:** 4 Teams (Designated as Teams A, B, C, and D).
- **Roster Size:** Exactly 11 registered players per team (Total league pool of 44 players).
- **Game Format:** 9-Hole Match Play using a **2x2 Four-Ball (Better-Ball)** format.
- **Total Competition Size:** Exactly **60 individual matches** played over the course of the season.
- **Weekly Play Days:** Every Monday morning and Thursday morning.

Daily Match Mechanics

On every scheduled Monday and Thursday morning, all 4 teams will compete. A single daily face-off between two teams requires them to field **4 players total, split into 2 pairs**.

- **Tee Times 1 & 2:** Team A Pair 1 vs Team B Pair 1 | Team A Pair 2 vs Team B Pair 2
- **Tee Times 3 & 4:** Team C Pair 1 vs Team D Pair 1 | Team C Pair 2 vs Team D Pair 2
- **Accountability:** A built-in point penalty system ensures team captains actively manage their rosters and respect player inclusion rules

3. ROSTER MANAGEMENT:

To fulfil the committee's mandate that **every player must play at least 4 games**, Team Captains must manage their weekly lineups using one of the following mathematically balanced roster models:

4. SCORING & POINT SYSTEMS

The Team standings will be determined by an objective, performance-based points system updated after every playing day.

Match Points (Determined on the course)

Every 2x2 Four-Ball match is a self-contained contest with point table as below:

- **Match Win:** 2 Point awarded to the winning team.
- **Draw:** 1 Point each awarded to both teams.
- **Match Loss:** 0 Point awarded.

5. ROSTER COMPLIANCE & "FALL SHORT" PENALTIES

To prevent captains from over-playing top players and ignoring lower-handicap or casual squad members, a strict accountability clause is integrated into the group rules.

- The Penalty: If any registered player on a team's roster finishes the season with fewer than 4 games played, that team will suffer a mandatory deduction of 2 points from their final season standings for each player who falls short.
- **Exceptions:**

a) If a player is out of town or out of the country for the entire first round and informs the team captain who in turn informs the core committee in writing, the team will not be penalised for the players absence during the period of his/her absence.
b) If a player suffers a verified medical issue and not able to play.

In both above cases, the captain may register an official replacement player with the committee of the same handicap of an absentee or injured player. The new players will be replaced with the player/s with the similar handicap with the game count history toward the 4 game minimum requirement.

6. COURSE OPERATIONS & TEE TIME ALLOCATION

To ensure smooth operations and clarity for the starter's box, each playing day requires **4 morning tee times** split into two distinct team face-offs. It will be responsibility of respective captain to arrange morning slots for Monday & Thursday.

Lineup Submission Rules for Captains

- Blind Lineups: Team Captains must submit their chosen Pair 1 and Pair 2 rosters to the Committee by 3 PM on the Sunday / Wednesday evening prior to the match day.
- No Swapping: Once lineups are locked and submitted, captains cannot swap players between Pair 1 and Pair 2 on the morning of the match.
- Forfeits: If a pair is missing a player at their designated tee time, the remaining lone player may play against the opposing pair alone. If both players in a pair fail to show, the 2.0 Match Point is automatically awarded to the opposing team.

7. COURSE HANDICAP & STROKE ALLOCATION

To begin with, handicap of all players will be the club handicap as on date. ¾ of this handicap shall determine the strokes. However, the dynamic handicapping system (currently being used in most league matches), based on the number of pars in a match will come into effect after every game as per the table below:

The threshold to trigger a change in the player's handicap is provided in the table below for 18 holes. **Convert into half to arrive at 9 holes threshold.**

Handicap	Pars Threshold		Handicap	Pars Threshold		Handicap	Pars Threshold
-	-		12	8		5	14
18	2		11	9		4	15
17	3		10	10		3	16
16	4		9	11		2	16
15	5		8	12		1	17
14	6		7	13		0	18
13	7		6	14		-	-

For the purpose of dynamic handicapping, a birdie will be counted as two (2) pars, an eagle as three (3) pars and an albatross as four (4) pars. Exception: in case of a hole in one - it will be counted as 2 pars.

1. The number of pars made by a player will be counted and compared to the handicap in the table above.
2. A player's handicap will be reduced by 75% of the difference between his/her initial handicap and the proposed handicap if he/she crosses the threshold of permitted number of pars corresponding to the table above during the course of the League
3. The formula for the above revision is (initial handicap - proposed handicap) x 75%.
4. The same formula will apply to all handicap categories, as per the table above.
5. The change in handicap will apply from the next/subsequent match.

Example

- If an 18 handicapper makes 5 gross pars in a game (calculated over 18 holes), his/her initial handicap will be reduced by 2 strokes using the DHS table & formula mentioned above and will become 16.
- Calculation: (18-15) X 75% = 2.25 Which becomes 2 when rounded off. Hence the revised Handicap is 18-2 = 16.

  Explanation:
  Initial Handicap is 18
  Proposed Handicap if player makes 5 pars is 15
  75% of the difference is 2.25 which gets rounded off to 2.
  Hence revised handicap for next round = 18- 2 = 16

¾ of the difference in the handicap will be made in down ward revision only, limited to a maximum of two points at a time. No upward revision in handicap to be made. After every match the 9 holes score cards of every player signed by him and the opponent, to be scanned and uploaded on team group and sent to designated core committee member.

Roster Handicap Maximums

To prevent excessive stroke advantages on a 9-hole loop, player handicaps will be capped at the following **maximum 18-hole limits**:

- **Men:** Maximum 18-hole Handicap Index of **24.0**
- **Ladies:** Maximum 18-hole Handicap Index of **28.0**
- *Players with higher official handicaps may still participate, but they must play down to these maximum caps for all group calculations.*

8. WEATHER CONTINGENCY CLAUSE ("RAINOUT POLICY")

If weather forces the course to close or play to be suspended during a match morning, the validity of the matches is determined by how many holes have been completed:

- **Incomplete Match (Fewer than 5 holes completed):** The entire day's play is officially declared a "Rainout." All scores from that morning are nullified.

- **Official Match (5 or more holes completed):** If all groups have completed at least 5 holes when play is permanently halted, the match is deemed official. The scores at the moment of suspension stand as the final results. Any remaining unplayed holes are automatically halved.

Rescheduling "Rainout" Days

Because the Group plays twice a week (Monday and Thursday), rained-out days cannot simply be pushed to the next regular playing day without disrupting the 5-cycle rotation. The committee will use the following two-tier rescheduling protocol:

- **Option 1:** The Immediate Wednesday / Friday Makeup (Preferred): If a Monday match is rained out, it will be made up on the immediate next day (Wednesday morning) using the same tee times. If a Thursday match is rained out, it will be made up on the immediate next day (Friday morning) using the same tee times.
- **Option 2**: The "Extension" Method: If the course remains unplayable on the makeup day (Wednesday / Friday), the missed round will be cleanly appended to the end of the 8 -week schedule. The entire league calendar will slide back by one playing day to ensure all 60 matches are completed on the turf.

Roster Flexibility for Rescheduled Matches

If a match is rescheduled to a Wednesday or Friday, players originally scheduled to play may have work or personal conflicts.

- **Lineup Changes Allowed:** Team Captains are permitted to change their 4-player lineup for the makeup day but with similar handicap.
- **Stat Tracking:** The games played on the makeup day will count toward the new players' **4-game minimum requirement**, and the players who could not make it will not be penalized.
- **POST-SEASON PLAYOFF FORMAT (SEMIFINALS & FINALS)**
- To get to our winning team, the competition will transition from round-robin and Stableford play into a **Knockout Playoff.**
- **Playoff**
- Teams will play each other based on how they stood after Round Robin and Stableford matches :
- **Team 1**: with the highest total points.
- **Team 2:** with the second-highest points.
- **Team 3:** with the third-highest points.
- **Team 4**: with the lowest points.

- **Semifinal Matchup 1**: **Team 1 vs. Team 4**
- *Tee Time 1*: Team 1 (Pair 1) vs. Team 4 (Pair 1)
- *Tee Time 2*: Team 1 (Pair 2) vs. Team 4 (Pair 2)

- **Semifinal Matchup 2**: Team 2 **vs. Team 3**
- *Tee Time 3*: Team 2 (Pair 1) vs. Team 3 (Pair 1)
- *Tee Time 4*: Team 2 (Pair 2) vs. Team 3 (Pair 2)
- *The two winning teams advance to the Grand Final. The two losing teams advance to the 3rd-Place Consolation Match.*
- **Playoff Day The Finals & Consolation (Thursday Morning)**
- The season concludes with the two top teams playing for the championship trophy, while the other two teams play for final club rankings.
- **The 3rd-Place Consolation Match**: **Loser of Semifinal 1 vs. Loser of Semifinal 2**
- *Tee Time 1*: Consolation Team Loser of Semifinal1 (Pair 1) vs. Loser Consolation Team of semi final 2 (Pair 1)
- *Tee Time 2*: Consolation Team Loser of Semifinal 1 (Pair 2) vs. Loser Consolation Team Semi final (Pair 2) [
- **The Grand Final Championship**: **Winner of Semifinal 1 vs. Winner of Semifinal 2**
- *Tee Time 3*: Finalist Team winner of Semi final 1 (Pair 1) vs. Winner of Semifinal 2 (Pair 1)
- *Tee Time 4*: Finalist Team Winner of Semifinal 1 X (Pair 2) vs. Winner of Semifinal 2 (Pair 2) [1
- **10. PLAYOFF TIERS & OVERTIME RULES**
- Because a playoff match cannot end in a draw, the standard regular-season point allocation (0.5 points for a tie) is eliminated. Teams must win **more than 1.0 total point** across their two pairs to advance.
- If after both 9-hole matches are completed the team score is tied at **1.0 to 1.0**, the following tie-breaker progression will be used immediately:
- **Total Holes Won (Up-Back)**: The team with the highest combined number of individual holes won across both pairs wins the tie-breaker.
- **Sudden-Death Playoff**: If still tied, each captain will select **one pair** to represent their team. This chosen pair will enter a sudden-death play off on the designated 1st hole until a winner is determined.

PLAYER OF THE TOURNAMENT AWARD (THE "MVP" TRACKER)
To reward exceptional individual play throughout the first regular season, the group will feature a **Player of the Tournament** award. This tracking system uses a performance-based point structure to highlight the player who makes the most net eagles, birdies, and pars.

Points are accumulated hole-by-hole based on the player's individual **net score** (the score after applying their adjusted handicap strokes on that hole).

- **Net Eagle:** 4 Points
- **Net Birdie:** 3 Points
- **Net Par:** 2 Points
