SUBJECT: Round 2 Format Proposal – 9-Hole Net Stableford Team Match Play

Dear Core Team,

As we move into Round 2, our primary goal is maximum player engagement. We need to ensure that all 44 players across our 4 teams remain active, while keeping the schedule manageable and highly competitive.

To achieve this, we have designed a fast-paced **9-Hole Net Stableford Team Match Play** format. It balances individual performance with a unique team-scoring dynamic. By playing twice a week, we guarantee that every single roster member will play **between 4 and 6 matches**.

Individual Hole Scoring (Net Stableford)

To keep the pace of play fast over 9 holes, we are using a standard point system based on players' **9-hole course handicaps**:

- **Net Eagle:** 4 points
- **Net Birdie:** 3 points
- **Net Par:** 2 points
- **Net Bogey:** 1 point

Net Double Bogey or worse: 0 points (Players can pick up their ball once they can no longer score to save time)

Round 2 Concept: 9-Hole Net Stableford Team Match Play

1. Tournament Schedule & Roster Logistics

- **Frequency:** Matches take place twice a week on **Mondays and Thursdays**.
- **Matchday Fixtures:** Two teams face off head-to-head each matchday.
    - *Example:* Team A vs Team B on Monday; Team C vs Team D on Thursday.
- **Daily Lineup:** On any given matchday, the two competing teams field **two 2-player pairings** each. This means 4 active players per team, resulting in 8 total players (2 foursomes) on the course per day.
- **Player Rotation:** Because each team has 11 players, team captains will rotate their rosters weekly. Over the course of the round-robin cycles, this ensures **everyone hits the mandatory 4 to 6 games window**.

2. Individual Hole Scoring (Net Stableford)

To keep the pace of play fast over 9 holes, we are using a standard point system based on players' **9-hole course handicaps**:

- **Net Eagle:** 4 points
- **Net Birdie:** 3 points
- **Net Par:** 2 points
- **Net Bogey:** 1 point

- **Net Double Bogey or worse:** 0 points (Players can pick up their ball once they can no longer score to save time).

3. Team Scoring Mechanics (The Net Margin)

To foster team chemistry and make every single shot count, scores are aggregated at the pairing level, and team standings are decided by the margin of victory:

- **The Pairing Score:** On each hole, the net Stableford points of both players in a 2-man pairing are **added together**. *(e.g., Player 1 gets a Net Par [2 pts] + Player 2 gets a Net Birdie [3 pts] = 5 points for the pairing).*
- **The Match Margin:** At the end of the 9-hole round, the final total points of opposing pairings are compared.
- **Master Standings Impact:** The **difference (margin)** between the two pairings' final scores is directly added to or subtracted from the master team leaderboard.

Scoring Example (9 Holes):

- **Pair 1 (Team A):** Finishes 9 holes with a combined **35 points**.
- **Pair 1 (Team B):** Finishes 9 holes with a combined **31 points**.
- **Leaderboard Update: Team A receives +4 points**.

Why This Format Works for Round 2:

1. **High Engagement:** Every single point won or lost by a pairing directly moves the needle on the master team leaderboard.
2. **Speed:** 9-hole matches are easy to schedule on weekdays (Mondays/Thursdays) without consuming a full weekend day.
3. **Flexibility:** Captains have the strategic freedom to pair stronger players with higher handicappers to maximize their net point margins.
